

See Styles and Samples Fall and Winter 1909-10

We are Exclusive Agents for the American Ladies' Tailoring Co., and are showing 180 different samples of the very latest productions in cloth and over 50 colored cuts of cloaks, suits, etc. You have all these samples and styles to select from, any of which will be made to your individual measure, hand-tailored and every garment a perfect fit. This is the most elaborate display ever shown in Farmington. You are cordially invited to come and see this splendid display. The season for fall dresses, skirts and coats is now here. Mr. Russell and Miss McCormick will be more than delighted to show you these samples and styles and take your measure.

Cole & Nixon Merc. Co.

BISMARCK BREVITIES.

Miss Fannie Bryan is spending a few weeks in St. Louis.

Mr. F. Bushon is preparing to erect a new tin shop near the livery stable.

The most welcome rain for many years reached here this week.

Miss Ethel Bishplinghoff left Monday for Desloge to open her school.

Mr. and Mrs. J. K. Thomson attended the Elvins picnic on Labor Day.

Mr. Walter Lee of Charleston visited the family of Mr. Charles Butler Monday.

Mrs. Scott Dent and son left Sunday for their home in Sedalia after a visit to Miss Maude Dent.

Mr. Emmet Thomson left this week for Cape Girardeau county to take charge of his old position there.

Mr. Albert Scheidling sustained a bad looking cut over one eye Monday while disconnecting some engine rods.

Mrs. McSpadden of Caledonia, Miss Alice Smith and Miss Myrtle Martin of Irondale visited Flat River to attend the district meeting of the Woman's Home Mission Society.

School opened Monday with a large attendance. Prof. A. C. Floyd, fresh and vigorous, with an able corps of assistants, give promise of the most successful year in the school's history.

Born, this week, to the wife of Mr. Charles Fatchett, a twelve-pound boy; to the wife of Mr. Robert Robadeaux, an eight-pound girl, and to the wife of Mr. Henry Overstreet, a seven-pound boy.

NOTICE TO GRAIN DEALERS.

The Merchants Exchange of St. Louis extends an invitation to every Grain and Elevator man to come to St. Louis during the week of October 4th to 9th, and if he will send his name to this Bureau a visitor's ticket to floor will be issued, good for six days.

All who have ever lived in St. Louis are especially urged to come and take part in the Centennial Celebration of the incorporation of the city.

Reduced rates on all railroads. **PUBLICITY BUREAU.** 214 Chamber of Commerce, St. Louis, Mo.

MEETS OLD SWEETHEART.

It is a safe bet that Judge Gayon D. Burgess of the Missouri supreme Court believes in luck. While in Los Angeles at the time of the Elks convention he stopped at a second-hand book store to look for a rare old volume. The woman who came forward to wait on him was Miss May Berger, who had been his sweetheart many years before in Kentucky, and of whom he had lost all trace. They were married two days later and are to be back in Jefferson City about September 10. Judge Burgess is 74 years old.

BUSINESS COLLEGE NOTES.

Our regular school year's work began Tuesday of this week with a very encouraging enrollment for both day and night sessions. The same report comes from the different schools, so that we have reason to believe that the present year will be a very good one. Profs. Detting and McNamee are taking right hold of their classes, and with the rearrangement of the program Prof. Moothart does work in both the shorthand and bookkeeping departments.

John Dempsey, one of our students, has been promoted to the stenographic position of private Secretary to General Manager Guest of the National Lead Co., Flat River; Guy McDaniel who has had charge of the books and stenographic work of the Miner's Lumber Co. of Flat River, has been promoted to the management of the Elvins Branch of said Company, while Mr. McDaniel is succeeded by another of our students, Thos. Buckner, who was with the Flat River Realty Co. for some time. These young men are all receiving excellent salaries and deserve the special success already achieved.

President Moothart has a call for an experienced, competent bookkeeper, and has no graduates out of positions to accept the call. Anyone interested may ascertain the facts by writing Mr. Moothart.

We expect to enroll several new students next Monday and organize other classes.

The young people of Farmington and vicinity are beginning "to get their eyes open" and fully realize that there is no need of spending 4, 5, and 6 years in getting a literary or college education and then earn no more money than the young people who attend the Moothart Business College 6, 8, and 10 months, and then go out into good office positions, working 12 months each year at good salaries.

A Sprained Ankle.

As usually treated a sprained ankle will disable the injured person for a month or more, but by applying Chamberlain's Liniment and observing the directions with each bottle faithfully, a cure may, in most cases, be effected in less than one week's time. This liniment is a most remarkable preparation; try it for a sprain or a bruise, or when laid up with chronic or muscular rheumatism, and you are certain to be delighted with the prompt relief which it affords. For sale by E. M. Laakman.

FOR SALE Old Silas Johnson Homestead

STREET IMPROVEMENT RESOLUTION.

Jefferson, Washington, Liberty and Columbia Streets Bordering on Public Square.

Be It Resolved, by the Board of Aldermen of the City of Farmington, Missouri, as follows:

That the Council of the City of Farmington, Missouri, deems and finds it necessary to improve that portion of each Jefferson, Washington, Liberty and Columbia streets in said City bordering upon and composing the streets on the east, west, north and south sides of said public square, or court house, said improvements to be as follows:

First: The streets shall be graded so that the curb lines hereinafter described and the center lines between same will be the established grade of the said streets and the portions thereof hereinafter named and designated. The side of the curb nearest center of street is called face of curb or curb face; and all horizontal measurements, unless otherwise qualified, refer to the street side of the curb. All levels or grades, unless otherwise qualified, refer to top of the curb. All measurements referring to present sidewalks refer to the edge of walk nearest center of street and all levels or grades refer to top of walk at this point.

Curb Lines, Grades, Etc.

The west curb on Jefferson Street will be 12 feet east of west line of street and the east curb will be 40 feet east of west curb. On north side of Columbia Street the curb will be 3-10 feet below walk and at the south line of Liberty Street it will be 7-10 feet below walk. East curb will be 3-10 feet lower than west curb at center of square and will extend thence in each direction with uniform grade to join onto curbs at Columbia Street and Liberty Street.

The north curb of Liberty Street will be 13 feet south of north line of street and the south curb will be 40 feet south of north curb. At the east line of Jefferson Street the curb will be 1-10 feet below walk and at the west line of Washington Street it will be 15-100 feet below walk. The south curb will be 5-10 feet higher than the north curb.

The east curb on Washington St. will be 14 feet west of east street line and the west curb will be 45 feet west of east curb. The east curb will be 3-10 feet below walk on the north side of Columbia Street and half way between Columbia and Liberty Streets it will be 9-10 feet below walk. At the south side of Liberty Street it will be 8-10 feet below walk. West curb will be 2-10 feet higher than east curb at center of square and will extend with uniform grade in each direction to join on to curbs at Columbia Street and Liberty Street.

The north curb of Columbia Street will be 3 feet 6 inches south, and 0-10 feet below the walk, at the east side of Washington Street. At a point 100 feet west of the east line of Washington Street 5 feet 6 inches south, and 2-10 feet below walk. At the east side of Jefferson Street 5 feet 3 inches south and 3-10 feet below walk. At west side of Jefferson Street 5 feet south of and 1-10 feet below walk, so as to make the line straight from Main Street to the west line of Jefferson Street.

The south curb of Columbia Street on the part improved to be parallel to and 38 feet south of the north curb. And the grade on this curb at the east side of Washington Street to be 1-10 feet below walk. At the west side of Washington Street 7-10 feet below walk. At the east side of Jefferson Street 2-10 feet below walk. At the west side of Jefferson Street 7-10 feet below walk.

Curves of 20 feet radius to be used at northwest, northeast and southwest corners of Court House Square and curve of 30 feet radius at southeast corner of said square. Curbs of all streets leading into, or crossing said streets aforesaid at the corners thereof located upon any portion of said streets designated for improvements aforesaid shall be curved at corners with a radius of 10 feet so as to provide for the future paving of said streets.

Center of streets to be on plane between tops of curbs where the paving is 36 feet wide or over and one inch below a plane between tops of curbs where width is less than 30 feet, and to slope downwards each way so as to form a segment of a circle, joining on to the gutter with a uniform slope.

Second: Concrete combination curb and gutter, having side or face of curb and top of curb in the line and grade, as before stated, shall be constructed on each side of streets hereinafter designated for improvements.

Width of curb will be 8 inches at point 3 inches below top and width of gutter will be 2 feet. Thickness of gutter will be 6 inches to be constructed in one piece, having the body composed of one part Portland

cement and 34 parts selected gravel from St. Francois River, with a finishing coat composed of equal parts of cement and sand.

Curb and gutter to have a 6-inch cinder foundation.

Third: After excavating or filling the sub-grade it shall be thoroughly rolled and compacted with a ten ton roller, and upon this sub-grade shall be placed a layer of crushed stone to be spread on the prepared bed to such uniform thickness as to be not less than 6 inches deep after being thoroughly compacted with the ten ton roller. The stone for this course must be of a uniform size, broken to such size that no stone shall be less than one (1) inch nor larger than three (3) inches, measured on the greatest diagonal. It must be placed upon the road uniformly mixed, and shall present a true surface to the finished road. Stone screenings, or other filler, shall be uniformly spread on this layer of stone, as directed by the engineer, worked into the crevices and the whole thoroughly rolled.

Fourth: A second course of crushed stone shall then be added of such uniform thickness as to be not less than 3 inches deep after being thoroughly compacted with the ten ton roller. The stone for this course must be broken to such size that the dimensions are not less than one-half (1/2) inch—nor larger than two (2) inches, measured on the greatest diagonal. It must be uniformly spread and then given a light preliminary rolling. After the preliminary rolling, sufficient screenings to fill all voids, as directed by the engineer, shall be evenly spread over this second course. The whole shall then receive a finishing wetting and rolling until thoroughly compacted and the surface becomes smooth and rounded, as shown on the plan.

Fifth: It shall then be brought up to the proper grade with a dressing of macadam containing no pieces larger than will pass through a one-inch sieve, and at least half of the pieces must be over one-half inch in diameter. It shall then be rolled again, and brought to the finished grade.

Sixth: That this resolution be published for two consecutive weeks in some weekly newspaper or newspapers, printed and published in the City of Farmington, Missouri, and if a majority of the resident owners of property, liable under the law to taxation therefor at the date of the passage of this resolution, who shall own a majority of the front feet owned by residents of said City of Farmington aforesaid, abutting on the portions of the streets hereinafter named and designated to be improved, shall not within ten days after the date of the last publication of this resolution aforesaid, file with the Clerk of the City of Farmington aforesaid their protest against said improvements, then the Council shall have power to cause a contract or contracts to be let to the lowest and best bidder for said work and improvements on the plans and specifications filed therewith by the said City Clerk by the City Engineer, and cause the costs of said work and improvements to be levied and assessed against the lots and pieces of land and ground fronting or abutting on the portion or portions of the street or streets herein before named and designated and proposed to be improved as hereinbefore specified, provided that, when upon proper advertisement no good and satisfactory bids shall have been received, the City may proceed to macadamize and so improve said streets at its own expense, and shall keep an accurate account of the amount expended for labor and material, including grading and filling, opposite each lot or piece of ground abutting on said streets, and shall present same to the Board of Aldermen for assessment, and each lot or piece of ground abutting on said streets so improved shall be liable for the costs thereof as reported to the Board of Aldermen by the officer or committee having charge of the matter, and special tax bills shall be issued for the amount thereof against such lots or pieces of ground, as is provided in Section 5902, Page 105, Laws of Missouri, 1907. And it further appearing to the Council of said City of Farmington that the general revenue fund of said City is not sufficient to warrant the bringing of the above named portions of the therein named streets to the established grade of the city, it is hereby further ordered that the cost of bringing said streets hereinafter named and designated to grade shall be included in the special assessment aforesaid.

Passed and approved, this 7th day of September, 1909.
WM. R. TAYLOR, Mayor.
S. L. ASBURY, Clerk.

Why? From a small beginning the sale and use of Chamberlain's Cough Remedy has extended to all parts of the United States and to many foreign countries. Why? Because it has proved especially valuable for coughs and colds. For sale by E. M. Laakman.

Hot Water on a Fire. "Queer things happen at fires," said Lewis K. Jordan of Cleveland. "The other day the lace curtains caught on fire in an east side home and there was some panic while the fire lasted, you bet. Everybody called for the imported cork cut in the kitchen to hustle in with a dish pan or two of water. But she didn't arrive on the scene until somebody had pulled down the curtains and trampled out the flames. "Why didn't you hurry?" they asked her reproachfully. "Hurry," she repeated. "Wasn't I hurrying as fast as I could. I had hot water in the dish pan when you hollered at me and I had to throw out that and get some cold water. You didn't want me to come in and throw hot water on the fire and make it worse, did you?"
